

JAWERIA MUSHTAQ

AI/ML & MERN Stack Developer | Teaching | BS Computer Science

jaweriamushtaq41@gmail.com | 92-03284151331 | Rafiq Abad, Narang Mandi

● Available Full-Time: Friday, Saturday, Sunday

CAREER OBJECTIVE / ABOUT ME

Dedicated and analytical Computer Science student in the final stretch of a Bachelor's degree, possessing a strong foundation in programming, database management, and problem-solving. Passionate about Artificial Intelligence and Machine Learning, with hands-on project experience in exoplanet detection and environmental monitoring. Backed by multiple internships and certifications in Cloud Computing, Generative AI, UX Design, and Data Science. Proficient in Microsoft Office tools for documentation, data analysis, and presentations. Eager to apply technical skills in a professional environment and contribute to impactful, real-world projects from day one.

EDUCATION

Bachelor of Science in Computer Science (BSCS)

University of Narowal | 2023 – 2027 (In Progress) — 7th Semester

FSC (Pre-Engineering)

Standard Science College | 2020 – 2023

TECHNICAL SKILLS

Programming Languages: C++, Java, Python

Web & App Development: Mobile App Development (Java), MERN Stack (Internship)

Cloud Computing: Cloud Platforms (Internship)

Database Management: SQL, MySQL, PostgreSQL, Advanced Database Systems

Core CS: Data Structures, Operating Systems, Computer Networks, Digital Logic Design, Compiler Construction, Software Engineering

AI & Machine Learning: Artificial Intelligence, Machine Learning (ML), AI-Powered Exoplanet Detection, Deep Learning, Generative AI, Data Mining

Tools & Technologies: Microsoft Office (Word, Excel, PowerPoint), Parallel Computing, Digital Marketing, Git & GitHub, Firebase

PROJECTS

AI-Powered Exoplanet Detection (Machine Learning)

Developed a machine learning model to classify potential exoplanets using Kepler space telescope data, applying classification algorithms and data preprocessing techniques.

Environmental Monitoring System (Advanced Database)

Designed and implemented a database-driven system to track environmental parameters, enabling efficient data storage, retrieval, and analysis for monitoring purposes.

Traffic Management System (C++ & OOP)

Engineered an object-oriented system to simulate and manage city traffic flow using core C++ concepts.

Bullying Word Detection System (Data Structures in C++)

Built a text-analysis tool utilizing efficient data structures to identify and flag potentially harmful language.

Magic Pet Detective (Parallel Computing)

Implemented parallel algorithms to enhance the performance of pet detection and tracking processes.

House Price Prediction System (Artificial Intelligence)

Developed an AI model to predict real estate prices based on various input features and historical data.

PK Voyage (Mobile App Development - Java)

Created a travel-oriented mobile application for exploring and planning trips within Pakistan.

CERTIFICATIONS & INTERNSHIPS

- Cloud Computing Internship — IT Simplera Solutions
- Generative AI Internship — Internee.pk
- Internship in MERN Stack and Cloud Computing
- Foundations of UX Design — Google (Coursera)
- Foundations of Data Science — Google (Coursera)
- AI for App Building — Google (Coursera)
- AI for Research and Insights — Google (Coursera)
- Digital Marketing & E-commerce — Google (Coursera)

LANGUAGES

- English — Fluent
- Urdu — Native

INTERESTS & ACTIVITIES

- Continuous learning in AI/ML and emerging technologies
- Open-source contribution
- Tech blogging and knowledge sharing

JOB PROFILE

Designation / Job Title: AI/ML & MERN Stack Developer | Teaching

Education Level: Bachelors (In Progress — 7th Semester)

Job Experience: No Experience – Fresher

Availability: Full-Time on Friday, Saturday, Sunday

Languages Known: English, Urdu

I hereby declare that the above-mentioned information is correct and true to the best of my knowledge.
